

Built for better health and lower costs

With UnitedHealthcare Choice Plus, employees choose from any provider in the network, including specialists. There’s no need for referrals and no need to select a primary care physician (PCP). As a network-based product, Choice Plus gives members access to care from our over 1.2 million network providers.¹ Coverage outside the Choice Plus network is available, but at a lower benefit level.

A better value, an easier choice

Finding the best value when searching for a doctor can be challenging. UnitedHealthcare plans offer a simpler solution: When an employee chooses a Choice Plus network provider, they’re receiving the greatest value from their plan and oftentimes save money.
