Medicare Prescription Drug Plan (PDP),  
administered by OptumRx**

**2018 Comprehensive Formulary  
(List of Covered Drugs)**

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION  
ABOUT THE DRUGS WE COVER IN THIS PLAN**

This formulary was updated on November 2, 2017, and is a complete list of drugs covered by our plan.

For more recent information or if you have questions, please contact:

**Note to existing members:** This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us,” or “our,” it means OptumRx. When it refers to “plan” or “our plan,” it means State Health Plan PPO Medicare Prescription Drug Plan.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, premium, and/or copayments/coinsurance may change on January 1, 2019.

*Version 7*

Optum Insurance of Ohio, Inc. is a Medicare approved Part D sponsor and administers this plan through its pharmacy benefit manager, OptumRx, on behalf of your employer, union or trustees of a fund. If you need this information in another language or other format (Braille, large print, audio), please contact OptumRx Member Services at the number located on the back of your ID card.

## **What is the Comprehensive Formulary?**

A formulary is a list of covered drugs selected by State Health Plan PPO in consultation with OptumRx and a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. The State Health Plan PPO Medicare Prescription Drug Plan will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at an OptumRx network pharmacy, and other plan rules are followed.

## **Can the Formulary (drug list) change?**

Generally, if you are taking a drug on our 2018 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2018 coverage year except when a new, less expensive generic drug becomes available, or when new adverse information about the safety or effectiveness of a drug is released. .

If we remove drugs from our formulary; add prior authorization, quantity limits, and/or step therapy restrictions on a drug; or move a drug to a higher cost-sharing tier (as applicable), we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe, or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of January 1, 2018. To get updated information about the drugs covered, please contact OptumRx Member Services. Our contact information appears on the front and back cover pages.

If there is a mid-year non-maintenance formulary change (i.e., remove drugs from our formulary; add prior authorization, quantity limits, and/or step therapy restrictions on a drug; or move a drug to a higher cost-sharing tier), we will update our formulary and post it on our website. The updated formulary may be obtained from our website at [optumrx.com](http://optumrx.com) or by calling OptumRx Member Services. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages. We will notify beneficiaries in writing prior to making this type of change.

## **How do I use the Formulary?**

There are two ways to find your drug within the formulary:

### **Medical Condition**

The formulary begins on page 9. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category "Cardiovascular Agents." If you know what your drug is used for, look for the category name in the list that begins on page 9. Then look under the category name for your drug.

### **Alphabetical Listing**

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 141. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index.

## **Formulary Design**

The formulary structure features generic drugs, preferred brand name drugs, and non-preferred brand name drugs.

- Tier 1 drugs: Most generic drugs are listed under “Tier 1” with the lowest copayments.
- Tier 2 drugs: Drugs listed under “Tier 2” generally include preferred brand name drugs that will have lower copayments than non-preferred brand name drugs.
- Tier 3 drugs: Drugs listed under “Tier 3” generally have higher copayments than preferred brand name drugs.

Please refer to your Evidence of Coverage for more information.

### **What are generic drugs?**

Our plan covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

### **Are there any restrictions on my coverage?**

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** A prior authorization requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from OptumRx before you fill your prescriptions. If you do not get approval, the drug may not be covered.
- **Quantity Limits:** For certain drugs, there is a limit on the amount of the drug that will be covered.
- **Step Therapy:** In some cases, it will be required that you first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 141. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. For more information, please call OptumRx Member Services. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask OptumRx to make an exception to these restrictions or limits, or for a list of other similar drugs that may treat your health condition. See the section “How do I request an exception to the formulary?” on page 4 for information about how to request an exception.

### **What if my drug is not on the Formulary?**

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered. Our contact information appears on the front and back cover pages.

If your drug is not covered, you have two options:

- You can ask Member Services for a list of similar drugs that are covered. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered.
- You can ask OptumRx to make an exception and cover your drug. See below for information about how to request an exception.

### **How do I request an exception to the Formulary?**

You can ask OptumRx to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, the drug will be covered at a predetermined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.

- You can ask us to cover a formulary drug at a lower cost-sharing level if the drug is not in the high-cost drug tier. If approved, this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, we may limit the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, we will only approve your request for an exception if the drug is included on the plan's formulary, or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact OptumRx for an initial coverage decision for a formulary, tiering, or utilization restriction exception. **When you request a formulary, tiering, or utilization restriction exception, you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

### **What do I do before I can talk to my doctor about changing my drugs or requesting an exception?**

As a new or continuing member in our plan, you may be taking drugs that are not on our formulary; or you may be taking a drug that is on our formulary, but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary, or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with 31- to 34-day transition supply, consistent with dispensing increment, (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary, or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

If you are a current enrollee with a level-of-care change and you need a drug that is not on our formulary, or if your ability to get your drugs is limited, we will cover a temporary 31-day transition supply (unless you have a prescription written for fewer days) while you seek to obtain a formulary exception. If you are in the process of seeking an exception, we will consider allowing continued coverage until a decision is made.

### **For more information**

For more detailed information about your prescription drug coverage, please review your other plan materials. If you have questions about the plan, please call OptumRx Member Services. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages. If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or visit [www.medicare.gov](http://www.medicare.gov).

## Formulary

The formulary below provides information about cover drugs. If you have trouble finding your drug in the list, turn to the Index that begins on page 141.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., COZAAR), and generic drugs are listed in lower-case italics (e.g., *atenolol*). The abbreviations in the Requirements/Limits column tell you if there are any special requirements for coverage of your drug.

**B/D:** This prescription drug has a Part B versus D administrative prior authorization requirement. This drug may be covered under Medicare Part B or D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.

**ED:** This prescription drug is not normally covered in a Medicare Prescription Drug Plan. The amount you pay when you fill a prescription for this drug does not count toward your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving extra help to pay for your prescriptions, you will not get any extra help to pay for this drug.

**GC:** Gap Coverage. We provide additional coverage of this prescription drug in the coverage gap. Please refer to our Evidence of Coverage for more information about this coverage.

**HI:** Home Infusion. This prescription drug may be covered under our medical benefit.

**LA:** Limited Availability. This prescription may be available only at certain pharmacies.

**MO:** Mail Order Drug. This prescription drug is available through a mail order service.

**PA:** Prior Authorization. Our plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from OptumRx before you fill your prescriptions. If you do not get approval, your drug may not be covered.

**QL:** Quantity Limit. For certain drugs, our plan limits the amount of the drug that will be covered.

**ST:** Step Therapy. In some cases, our plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.
